Software Engineer with over one year of experience in Web Development and leading cycle from conception to completion. With a strong understanding of both front-end and back-end development, As the founder of a personal startup, I have demonstrated the ability to collaborate with cross-functional teams to deliver high-quality software solutions that meet client needs and enhance user experience.

PROFESSIONAL EXPERIENCE

Medicare 2023-present
Web Developer

- Developed a comprehensive healthcare platform that connects users with doctors, clinics, pharmacies, dentists, and home nursing services. The platform enables users to easily find and book healthcare services, including home nursing care.

Symloop technologies 2024-present
Web Developer

- worked on a project for a KSA client, to develop a responsive boat rental platform. The website enables users to rent various types of boats, (including yachts and sailboats...), or even list their own boats for rent. Key features include a real-time messaging system for seamless communication, detailed boat listings with availability and inquiry options, and a range of additional functionalities. support both english and arabic as language (And its admin panel)
- Developed a car rental website for a client in Dubai, enabling users to rent cars, check availability, and book online. The platform also allows clients to list their cars for sale to the site owners. With a responsive interface and secure booking. (And its admin panel)
- Developed a stock management system for the Sétif Commune to simplify inventory tracking and control. The system ensures efficient resource management, detailed reporting, and improved operational organization. (And its admin panel)
- Developed e-commerce website for a shop in sétif to facilitate online shopping, featuring product listings, a shopping cart, and many other features. (still on development)

EDUCATION

University of Ferhat Abbas Sétif 1, Sétif Algeria

Master's degree, Foundations and Engineering of Information and Imaging

- Gained practical experience in developing robust web applications, with a strong focus on seamless data integration and delivering exceptional user experiences. Demonstrated expertise in building scalable and responsive platforms that meet client needs and enhance user engagement.
